Analisis melalui Mikrotik menggunakan fitur Netwatch

The screenshot displays the Mikrotik Netwatch interface. At the top, there is a title bar labeled "Netwatch" with standard window controls. Below the title bar is a toolbar with icons for adding, deleting, checking, unchecking, printing, and filtering, along with a search box labeled "Find". The main area contains a table with the following columns: Host, Interval, Timeout (...), Status, and Since. The table lists 27 items, each with a host address and a status of "up". The items are grouped by location, indicated by "Unifi Lab 1", "Unifi Lab 2", "Lab Akuntansi", "Switch Ruijie", "CDC", "Ruang Kelas 103", "Lobby", "Klinik 1", "Klinik 2", "Ruang Kelas 108", "Ruang Kelas 110", "Ruang Kelas 105", and "Ruijie Lt3.Barat". The status for all items is "up", and the interval is consistently "00:01:00" and the timeout is "1000". The "Since" column shows the last time each host was checked, with dates ranging from May 10, 2023, to May 11, 2023. At the bottom left of the table, it says "27 items".

Host	Interval	Timeout (...)	Status	Since
::: Unifi Lab 1				
192.168.89.1	00:01:00	1000	up	May/11/2023 07:35:00
